ANTEING UP FOR CANCER RESEARCH—More than 300 attended and \$150,000 was raised at Tower Cancer Research Foundation's (TCRF) fourth annual Ante Up for a Cancer Free Generation (CFG) Poker Tournament and Casino Night at the Sofitel Hotel. Dozens of stars from TV, sports, music and film antied up and bet big to support talented young cancer researchers. The top three tournament prize winners were Hooman Hakimi, Teri Hatcher (*Desperate Housewives*, *Lois & Clark: The New Adventures Of Superman*) and Beau Casper Smart (*Dirty Dancing*, *The Perfect Match*). CFG is the young leadership division of Tower that seeks to identify, among their peers in the Southern California region, innovative doctors, medical professionals and researchers and help them discover and implement new ideas and techniques to conquer cancer. Additionally, CFG's efforts support young people and their families that have been impacted by cancer, so that they may approach life with renewed strength and optimism. From left are: TCRF's Cancer Free Generation Advisory Board Members Casey Federman, Justin Ehrlich, Shaun Niles, Angela Lerro, Suzanne Asherson, Teri Hatcher, David Schwartz, Lauren Warsavsky and Jen Levy.
