

SCIENTIFIC ADVISORY BOARD

Xiaojiang Chen, PhD

*Professor of Biological Chemistry - USC Keck School of Medicine
USC Norris Comprehensive Cancer Center*

Gay M. Crooks, MD

*Professor of Medicine - UCLA School of Medicine
UCLA Jonsson Comprehensive Cancer Center*

John F. DiPersio, MD, PhD

*Endowed Professorship of Medicine - Washington University School
of Medicine
Siteman Cancer Center*

Mitchell E. Gross, MD, PhD

*Associate Professor of Medicine - USC Keck School of Medicine
USC Norris Comprehensive Cancer Center*

Solomon I. Hamburg, MD-PhD

*Clinical Professor of Medicine - UCLA School of Medicine
UCLA Jonsson Comprehensive Cancer Center*

Steven Jonas, MD, PhD

*Associate Faculty - UCLA School of Medicine
UCLA Jonsson Comprehensive Cancer Center*

Michael Karin, PhD

*Distinguished Professor - UC San Diego School of Medicine
UC San Diego Health*

Phil Koeffler, MD

*Professor of Medicine - UCLA School of Medicine
Cedars-Sinai Medical Center*

Noah Merin, MD, PhD

*Hematologist/Oncologist
Cedars-Sinai Medical Center*

Edwin Posadas, MD

*Associate Clinical Professor - UCLA Department of Medicine
Cedars-Sinai Medical Center*

Michael F. Press MD, PhD

*Professor of Pathology - USC Keck School of Medicine
USC Norris Comprehensive Cancer Center*

Saul Priceman, PhD

*Assistant Professor - City of Hope
City of Hope Helford Clinical Research Hospital*

Matthew Rettig, MD

*Professor of Medicine - UCLA School of Medicine
UCLA Jonsson Comprehensive Cancer Center*

Antoni Ribas, MD

*Professor of Medicine - UCLA School of Medicine
UCLA Jonsson Comprehensive Cancer Center*

Fred Rosenfelt, MD

*Clinical Professor of Medicine - UCLA School of Medicine
Cedars-Sinai Medical Center*

Joshua P. Sasine, MD, PhD

*Assistant Professor - UCLA School of Medicine
UCLA Jonsson Comprehensive Cancer Center*

John S. Yu, MD

*Professor of Medicine - Neurosurgery
Cedars-Sinai Medical Center*

“We have put together a panel of some of the brightest minds in cancer research to evaluate our grant requests. Each application is scored, and there is often spirited debate around the table. At the end of the evening, we are left with the best of the best to fund. **If we had more money to grant, there would certainly be many more requests that we would find worthy of funding.**”

- Fred Rosenfelt, MD, VP Scientific Affairs
