

The Tower Legacy Society honors generous people who have made an investment, through a future gift, and improving the lives of patients for years to come.

Individuals who establish a gift to Tower Cancer Research Foundation through their will, trust or other planned gift are integral to the future of life-transforming research.

Tower Legacy Society members share a common bond: a vision for building a foundation for new cures, support for patients and advancing research that will save lives. When you include Tower in your estate plans, you are helping to ensure Tower will have the resources it needs to meet the priorities of the future. These include:

- Early-stage ideas that push the boundaries of science and are not yet eligible for federal funding
- Early-career investigators working on the cures of the future
- Senior Investigators close to making real treatment breakthroughs
- Supportive programs for patients and caregivers to manage the challenges of a diagnosis

## A TRADITION OF GIVING

**“Cancer is a terrible sickness. It claimed my husband’s life and the lives of many of my friends. While I pray for a cure in my lifetime, I want to ensure the work continues until there are answers, even if I’m not around to see it. I have invested in Tower in the hopes that Tower is the one to find the answer.”**

**- Angie David**  
Tower Legacy Society member

Through a gift from her estate, Angie honors her husband’s memory and leaves a legacy of generosity that lives on. Like Angie, you can make a commitment to Tower and leave a lasting mark on the world.
